Minutes of October

The Minutes of 23rd October 1850, were read and approved.

Parliament Public action

Mr. Armstrong in giving a Monthly account of his Department, read first in English and then in Native a Statement of his observations during his late Visit to Maui, upon the subject of Schools, and the Collection and application of Funds for the support of Schools. Teachers have already demanded an increase of wages. Mr. Armstrong Visited the Prisons — found that few of the Prisoners knew how to read and write. Suggests the establishment of a Farm for the reform of juvenile offenders, upon the plan adopted in England and America. Mr. Armstrong explained the Complaints of the Catholics at Wailuku about Schools, and the explanations rendered by the Inspector. Mr. Armstrong inspected a Catholic

olics Hilo. Mr. Armstrong read also a Statement of the doings of Charles the Catholic Priest, at Hilo – also of a Priest at Kahala, and further Mr. Bonds letter of August last, explaining upon the subject of Catholic complaints, shewing, if true, very imprudent and improper conduct on the side of the Catholic Party.

Mr. Armstrong read the Priest Charles' letter of 15th July 1850, stating certain complaints of Songs &c. at a temperance celebration and the Inspectors letter of Kaui denying the same, also Landis statement, and the Childrens statement declaring the whole to be false.

vate tters. As these letters were private, Mr. Lee and Mr. Judd thought it improper that the letters and statements read, should be passed in and filed, as documents of the Privy Council. This View was acquiesced in.

Mr. Armstrong brought forward the following Resolution.

No. 1

Resolved, That the Minister of Public Instruction be, and is hereby authorised to procure a new edition of 5,000 copies of "Andrews Atlas," in

the

Hawaiian language, and to defray the expence of the same out of the appropriation for the Common public Schools.

Mr. Judd

Mr. Judd said before the Resolution was passed, he had some remarks to make, and would make them first in Native, as he thought it ought to be always done, the assembly being chiefly a Native assembly. He explained his views of the extravagant pretensions of the Catholics, and of their systematic endeavours not to appeal to the Kings Tribunals, but to depend upon some foreign Authority. Mr. Judd read a note of the terms in which he would reply to such Complaints.

Native applications for land in Kahuku

On behalf of Native Applications for Land, Mr. Young brought forward the following Resolution which was passed.

No. 2. — Resolved, That the Minister of the Interior be, and is hereby, authorised to inform Applicants for Government Land in Waikapu Maui, that that Land will not be sold at present.

Pease on the 5th October 1850. upon his paying therefor, the Sum of one dollar per acre. Provided however That the Lands of Native claimants shall be reserved, and also 10 acres, one of Kalo, and Nine of Kula, agreeably with the application of N. Kahele under date of August 7th 1850.

No. 5. Resolved That the application of Edward Rouxel for the purchase of Namahana in the district of ~~Koloa~~, Kauai, cannot be granted, the land having been sold to previous applicants.

Mr. Lee brought forward the application of Kane and the following Resolution was passed.

Minutes of 6th November

The Minutes of the 6th November were read and Confirmed.

Wyllie

Mr. Wyllie suggested ~~that Articles III & IV~~ of the market Ordinance should be compared with Mr. Bates' draft, and corrected wherever any discrepancy might be found.

Stamped letter

Mr. Wyllie handed to the President a Wafered letter. He opened it. It was from Captain Thomas Russell, dated 6th November, applying for the Office of Harbour Master.

Handed Governor

Mr. Lee gave his opinion that the appointment belonged to the Governor, and that the P. Council had nothing to do with it. The letter was handed over to the Governor.

Report of Police Committee

On behalf of the Committee on the Police, Mr. Lee brought forward and read their Report.

Mr. Judd.

Mr. Judd moved that the Report be accepted, and it was agreed, that it should be read and discussed, Article by Article.

Mr. Judd

Mr. Judd objected to the payment of

$75 per Month to the Foreigners, if the Treasury was to pay them, but, if such City was to pay them, he had no objection.

Bates. Mr. Bates opposed the article, on the Ground that he did not consider such an augmentation of 12 Foreigners necessary, further than perhaps two more Foreigners to be added to the existing force. Mr. Bates was also opposed to the principle of payment of the Police by the Citizens.

Kuamoo. Governor Kekuanaoa approves of the Report of the Committee, and considers that it is the duty of the Government to possess the means of repressing disorders before they occur. He said that it would inspire confidence in Foreign Nations to know the existence of a good Police in Honolulu, and would attract Commerce.

Mr. Judd said if the object was to render Honolulu a secure place the same necessity existed for other Ports lately opened. In this case the expenditure would be very great.

Lee. Mr. Lee shewed that Mr. Judd was mistaken in his Calculation and wrong in his Logic. He shewed the importance of preserving the Order and peace of Honolulu, as the Capital of the Government.

Wyllie Mr Wyllie spoke in support of the views expressed by the Governor.

Judd. Mr. Judd explained the movement in Panama that Mr. Wyllie had referred to.

Bates. Mr. Bates admitted that the principles

laid down by Mr Lee were right, but he thought the Police in proportion to the Population were quite as efficient in Honolulu, as in New York or in London. For the protection of Honolulu relies upon the moral sense and assistance of the Foreign residents.

r Wyllie Mr Wyllie asked liberty by way of explanation to say that Mr. Bates' two Speeches were addressed to the case of exterior aggression, which formed no part of the Committees Report.

r Judd Mr Judd moved the following amendment to the first recommendation.

r Bates Mr. Bates recorded the amendment.

remarks The Governor says, he has no hesitation in approving of the 12.— that he will not object to 5 or 6, if it is thought best— that his idea is if we do not make a provision equal to the emergency, we will not seek the good of the Kingdom, and subject it to ~~seizure~~ reclamations from Foreign Nations for losses. His view was that in ancient times it had been the policy of the Government to keep Hawaii strong, because it was the seat of Government, now it ought to be the policy to keep Oahu strong for the same reason.

r Wyllie, Mr. Wyllie mentioned the Case of the Austrian Brig plundered on the Coast of Ireland for which the British Government had at once paid an indemnity.

r Ji Mr. Ji spoke eloquently in support

of Governor Kekuanaoa's views, and showed with much clearness the necessity of some organization so as that in case of need, the Government should not only know the men that they could depend upon, but that those men should understand something of their duties, and how they were to act.

Armstrong Mr. Armstrong spoke that in his view, Police protection should not be confounded with defensive measures to resist aggression from abroad. He spoke in favour of a resolution drafted by Mr Lee, which recommended a middle course.

The following Resolution was passed.

No. 1. Resolved, That the present Police force of Honolulu be increased by the addition of five Foreigners, who shall be paid at a rate not exceeding Sixty dollars per month.

The President resolved the Council into a Board of Finance.

Then the following Resolution was passed.

No. 2 – Resolved, That the Minister of the Interior is hereby authorized to employ Mr Sumner to make 500 feet of Hose for the Fire Engine Company, and draw on the Minister of Finance to pay for the same.

Mr Young adjourned the meeting till Monday at 11 A.M. then to proceed with the remaining recommendations of the Police Committee approved

Mr Bates brought forward Anthon Bolles & Cos letter of 4th November praying for a reduction of the fine of $1000, amount of the bond for the release of the Schooner "Paragon,"

After some discussion the following Resolution was passed.

No 4. Resolved, That the application of Anthon Bolles & Co for the remission of the amount paid by them for the owner of the Paragon, for the illicit trading in intoxicating liquors with Natives, be refused, on the ground, that it is inexpedient to show clemency to known Violations of the Laws of the Kingdom, and especially to parties whose proper remedy is against the person for whom they have paid a penalty.

Millers for land

Mr Young brought forward Consul General Millers letter of the 4th November, claiming to purchase a lot of land near the Beretania premises, for which he offers £100.

It was agreed that the Governor should ask the King if the present native claimants had any right to the land formerly belonging to Kalawalo. He returned saying that the Native occupants had no right there whatever.

No 5. Resolved, That the application of Consul General Miller for land, dated 4th November 1850, be referred to Dr Judd, with a request that he will negociate for the purchase of the Native rights in the same, with a View to sell the land to General Miller.

November 11th 1850.

On the 6th recommendation, Mr. Judd observed that it would be necessary to fine those who refused to assist at fires, when they occur, and also to consider the indemnity that ought to be paid to parties whose Houses might be pulled down for the safety of the Town.

No. 9. Resolved, That the Sixth recommendation be referred to a Committee of three, to prepare an Ordinance for the Organization of a fire Department for the City of Honolulu, and report the same to this Council. Mr. Bates, Mr. Judd and Mr. Wilkes appointed the Committee

Mr. Wyllie's Address

Mr. Wyllie arose and congratulated the Government, on this first meeting of the Council in the year 1851, on the prosperity of the past year. He thought the Government had been guided by honest principles. It was beginning to be respected by all who lived here. Many enemies had become friends. He hoped the year 1850 would be only the beginning of improvement and that the Kingdom would become a respectable one in the midst of this ocean. The council may all share in the instrumentality of the improvements; but the liberal views of the King render him a benefactor to the nation; he has justly taken the precedence. The world is looking with anxiety, to this nation. History shows that barbarous nations rise to a certain point & then are absorbed by others; but this nation has risen altogether above that point & still stands & still improve; and seeing this, other nations admire. Mr. Wyllie proposed that we have an extemporaneous prayer at the commencement of this year's business, thanking God for his goodness the past year, and ask for a continuance of his blessing

Mr. Armstrong said he agreed with Mr. Wyllie in his remarks and concluded with a prayer.

Mrs M. P. Chamberlain

Mr. Wyllie brought forward an application of Mrs. Maria P. Chamberlain for a piece of land in fee simple in behalf of her son Warren Chamberlain.

Mr. Wyllie said, it belonged to him to day to give an account of the proceedings on his departure. And he had only to repeat what he had said before.— Mr. Perrin and himself were going carefully over the facts from the beginning. He hoped that Mr. Perrin would find that France had not been correctly informed concerning the true state of affairs. It is impossible to state the result as we are busy in relation to facts that are of long standing. We draw no conclusions yet.

Mr. Wyllie

Mr. Wyllie said thes was his ~~birth~~day to make a statement of the condition of foreign relations — but he had only to state that no result had been arrived at yet with the Consul of France — that Mr. Perrin had appeared to be searching for the truth until the 15th of last month when he brought forward a paper which had given him considerable solicitude.

Mr. Roussel.

Mr. Armstrong then put forward the following resolution in favour of Mr. Rousel

Res. 1.

Resolved; That the words "fifty cents" be inserted in the Resolution of the 29 Dec? granting a tract of land to Ed. Rouxel on Kauai instead of the word "one dollar."

Meeting at Mr. Young's
Consul General's Miller's Speech

The British Consul General came in and said to the King. I have received the interrogatories which you made to me and have just on paper what seems to me a suitable reply. He then read his paper and remarked, that he did not anticipate any hostilities on the part of France, and consequently could not speak with that expectation in view. In conversation with Mr. Perrin today he had learned that the partiality of the government was deeply felt by France, as is likewise the case with England, and this is the real cause of all the difficulty. The King is not to blame for this partiality, it is his Government. He, the Consul had resided here seven years under credentials which requested the King to give credit to whatever he might say on the part of his Government, but he never was allowed to speak to the King. Had he been permitted he would have mentioned many instances of ill treatment of foreigners by this Government

The Consul said he does not agree with Mr. Wyllie on the subject of Diplomatic interference, such interference was very common, he had known of the interference of France in 13 instances; of England 11, of the United States 9, in cases where a clear act of injustice had been committed.

The French government think much of the insults to the catholics by two boys by their conduct in church and in his opinion the Consul General's [illegible]

had a right to interfere in such a case and demand redress. In regard to £. S. d. that is, dollars, it was more doubtful, the courts of the country might be left to decide such cases. He related several cases, in Belgium and in South America, and complained of certain remarks of the Polynesian respecting the native boys in churches as having given offence to France.

He moreover said he felt it to be his duty, to warn the King and chiefs against a Protectorate, and Annexation, as measures, either of which they would repent of, and would be more injurious than the inflictions of France. He said, the United States are very hards upon the natives of the countries they obtain. On these points he dwelt at length, when the King observed,

We understand very well these things of which you speak, but I wish to hear your opinion as to the time when property and life are no longer ~~are~~ secure. Will the British Government assist me if I will haul your flag?

Gen. Miller replied, The King knows the joint Engagement of England and France and form his own conclusion. It is not for me to utter a word that will look to throw the Islands into the arms of another. I warn you against Annexation to the United States, or a Protectorate, particularly the former.

The Premier then remarked, you are evidently under a mistake as to the object of this conference. The King did not send to you to enquire respecting annexation to the United States. We wish to depend for help upon Great Britain, our ancient friend, and to hear from you some words of encouragement that we will be protected in time of danger

Then the General spoke of the reporters coming

Proclamation of the King.

We Kamehameha III by the grace of God, of the Hawaiian Islands King,

By & with the advice and consent of our Kuhinanui and council of native Chiefs, pending our relations with France so oppressive to my kingdom, so inconsistent with its rights, as an independent State, and so obstructive of all our endeavors to administer the government of our Islands, with equal justice to all nations and equal independence of all foreign control, and despairing of Equity and justice from France; Hereby proclaim as our Royal will and pleasure, that all our Islands, and all our rights as Sovereign over them, are from the date hereof, placed under the protection and safeguard of the United States of America until some arrangement can be made to place our said relations with France upon a footing compatible with my rights as an independent sovereign, under the laws of nations, and compatible with my treaty engagements with other foreign nations; or, if such arrangements should be found impracticable, then it is our wish and pleasure that the protection aforesaid under the United States of America be perpetual

And we farther proclaim as aforesaid that from the date hereof, (of the publication) the flag of The United States of America shall be hoisted above the national ensign on all our forts and places and vessels navigating with Hawaiian Registers.

Wyllie

Mr. Wyllie holding up several documents said these should be acted upon but they were of such a nature as required the presence of the King. He had however nothing to communicate from France.

Californians

Mr. Wyllie stated, that there was now no doubt that the men who came here some weeks ago from California came with bad intentions — but they were disappointed in not finding affairs as they expected — That he had written to the Hawaiian Consul & that somehow the letter had been published. A copy of the letter was read.

Militia

Mr. W. stated that he was pleased with the improvement of the Soldiers — that in his opinion a disciplined Soldiery ought to be kept up to assist the Police in case of emergency and Protect a Money depository or Bank as there should be one. The present arrangement of lending money at 3 per cent was bad for all parties. If we had a bank it would be avoided — But a Bank must be protected.

Mr. Wyllie stated some things in relation to the gratification voted to the Marines of the Vandalia at the last meeting of the Council. As Prince Alexander was indisposed, it was presented by Mr. Wyllie. The gratification however could not be received, it being contrary to the laws of the U. S. The interview, however, with Capt. Res. 1

Resolved, That having heard the two despatches dated 27th instant from Captain Gardner, the Minister of Foreign Relations is ordered to acknowledge their receipt, with His Majesty's thanks, and the expression of His ~~respect~~ regret that the laws of the United States prevented the acceptance by Captain Gardner's Marines of the small token of His Majesty's sense of the valuable services which he had commanded to be presented to them, not knowing that it was contrary to American law.

Res. 2

Mr. Wyllie was appointed to take the minutes in the absence of Mr Andrews.

Mr. Wyllie submitted to the King the treaty of 10th July 1851, ratified by Her Most Gracious Majesty Queen Victoria, at Windsor Castle on the 12th Jan.y 1852 and afterwards was released by Her Majesty to prepare a ratification for him to sign, and then to exchange that ratification with the Plenipotentiary of Her Brittanic Majesty.

Mr. Wyllie stated that Earl Granville intended sending a copy of the treaty to the British Ambassador in Paris, with instructions to present it to the French Government at any favorable moment that might offer of inducing them to adopt the same treaty. He added, that this now was the only obstacle that remained to the King's right to have His own Tariff. To attain this was of great importance, and therefore it was our own interest, not in any way to provoke France, but on the contrary to treat her with every courtesy, so as to induce her to relinquish the tremendous hold she has over us, in the treaty of the 26 March 1846.

The King then Adjourned the Council till Monday next at 10 o'clock

Wyllie Mr. Wyllie begged leave to say to His Majesty that we are here to hear His Majesty's pleasure in obedience to his commands

King The King was pleased to make known that he desired to consult his council about his prerogatives in the appointment of ministers in articles 32 and 57. He thought that by the 32 article, if he wished to appoint a minister disagreeable to the other members of the Cabinet, he could not do so.

Wyllie Mr. Wyllie explained, that no Constitutional King did make such an appointment, for the consequence would be that all the other Ministers would resign — but it was otherwise with the whole cabinet, whenever they had lost the confidence of the nation; then a total change of Ministers became necessary, and for that article 57 amply provided.

Privil. attain. After a long discussion, it was agreed that the alterations wished for by the King, should be made. They were made ~~in~~ by the King's direction, by Prince Liholiho, in his hands writing.

After a great deal of further discussion, it pleased His Majesty to declare as follows

King I name the Kuhina Nui and My Chief Justice as my Special commissioners to explain to the House of ~~Representatives~~ Nobles and the House of Representatives that he had signed the New Constitution, with the alterations

Mr. Wyllie was appointed to take the minutes for Mr. Andrews.

Mr. Perrin

Mr. Wyllie explained the latest news that he had been able to obtain of Mr Perrin and that it was very doubtful whether he was on his way to the Islands or not.

That from Washington and London there was nothing new.

Letters of Messrs. Allen & Miller

Mr. Wyllie submitted the letters of Elisha H. Allen U. S. Consul and of Consul General Miller of the 22 and 23 September stating their objections, on public grounds, to the repeal of the Article requiring Consular Certificates from Masters of Ships previous to their clearance from the Custom house.

After some discussion, the feeling was that the repealing Act having been published, it should stand, but if experience should demonstrate evil results from it, the question of its repeal might be entertained.

Con. Miller re Brig Enigma

Mr. Wyllie made known an enquiry amicably promoted by Her Brit. Maj. Consul in relation to the condemnation of the British Vessel Enigma.

Hitchcock Consul

Mr. Wyllie submitted Mr. Hitchcocks application of the 2nd Oct. 1852 for the post of Consul for the King in California. Mr. Judd & Mr. Armstrong having reported favorably of the application, the following Resolution was passed.
